

API Specification

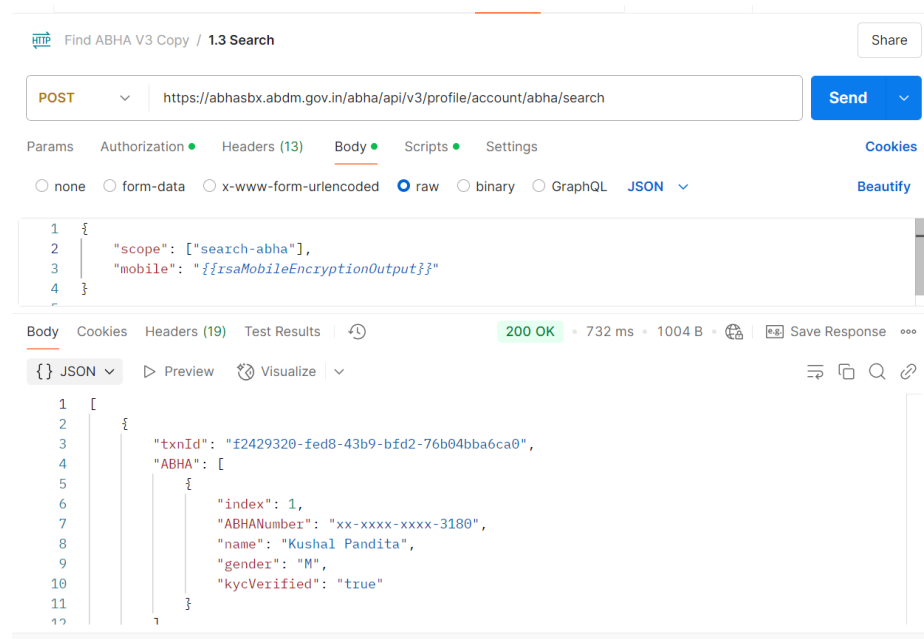

Find ABHA using mobile (Search ABHA): To initiate the search

Use this API

<https://abhasbx.abdm.gov.in/abha/api/v3/profile/account/abha/search> with scope as search-abha and mobile number in encrypted form.

Encryption Request: Please use public key which can be retrieved from cert API for mobile encryption

Response:

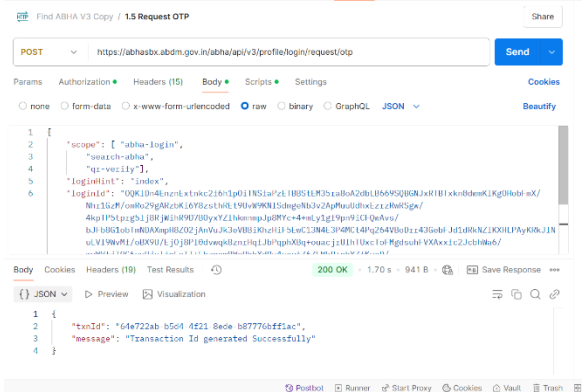

Login via Face-Auth Using QR Code:

1. Call the Verify by Face Auth API using the txnId obtained from the Search API response. Note that the transaction ID is valid for 10 minutes.

Response:

```
{  "txnId": "d059e607-564b-4202-8bd6-6e45a7d9a477",  "message": "Transaction Id generated Successfully"}
```

Sample Usage for Reference

- Use the txnid received in the response from the Request OTP API to generate a QR code with the following format: <https://phrsbx.abdm.gov.in/face-auth?txnid=d059e607-564b-4202-8bd6-6e45a7d9a477>

Sample QR code

- Next, scan this QR code using the ABHA App by tapping the QR icon located at the top-left corner of the login and registration screen.
- Proceed to complete the face scan process in the ABHA App. The app will then submit the captured PID to the ABHA service.
- Next, call the API below to retrieve the PID submitted from the ABHA App in the previous step:

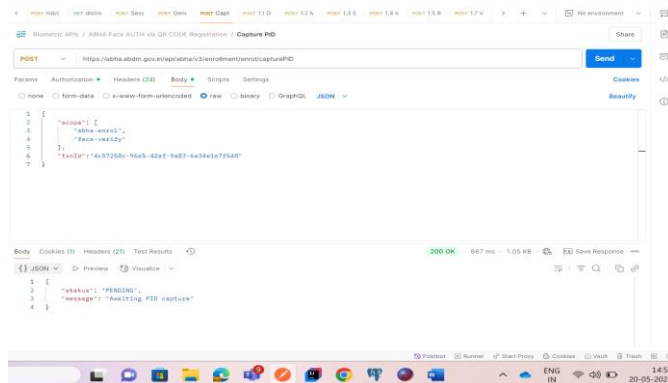

<https://abhasbx.abdm.gov.in/abha/api/v3/enrollment/enrol/capturePID>

Response:

```

{
  "status": "COMPLETE", "rdPidData":
  "PD94bWwgdMvYc2lvbj0iMS4wliBlbmNvZGluZz0iVVRGLTgiPz4KPFbPzERh
  dGE+C*****CiAgICAgICAgPFBhcmFtIG5hbWU9InR4bkklb2YwX1ZT0i
  MTIzMilvPgogICAgICAgIDxQYXJhbSBuYW1IPSJ0eG5TdGF0dXMiIHZhbHVI
  PSJQSURfQ1JFQVRFRClvPgogICAgICAgIDxQYXJhbSBuYW1IPSJyZXNwb
  25zZUNvZGUuIHZhbHVIPS1xMjMyli8+CiAgICAgL0N1c3RPaHRzPgo8L1BpZE
  RhdGE+",
  "message": "PID capture successful",
  "txnid": "d059e607-564b-4202-8bd6-6e45a7d9a477"}

```

Sample Usage for Reference

- Upon successful face capture, the response will include a status of 'COMPLETE' along with the PID data as described above. Other possible responses during the face capture process are as follows:

QR is not verified yet

```
{
  "status": "PENDING",
  "message": "Awaiting PID capture"
}
```

QR is Verified

```
{
  "status": "VERIFIED",
  "message": "Awaiting PID capture"
}
```

Face Capture Failed

```
{
  "status": "FAILED",
  "message": "<<reason for failure>>"
}
```

- Call verify API upon receiving status as COMPLETE along with PID data.

Response:

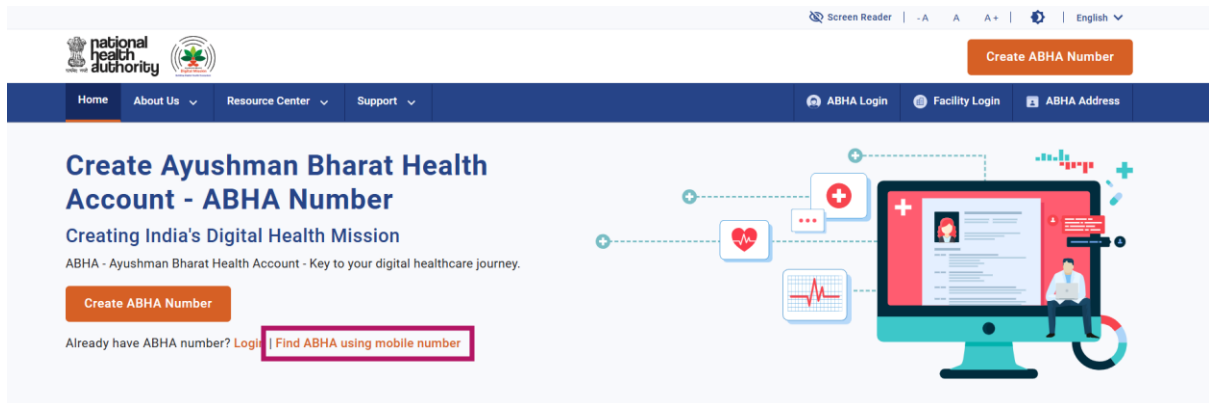

```
{ "txnId": "d059e607-564b-4202-8bd6-6e45a7d9a477", "authResult":
"success", "message": "FACE verified successfully",
  "token":
"eyJhbGciOiJSUzUxMiJ9.eyJpc0t*****_BmtQSAQcSBRWAqUJ0FGlj_U",
"expiresIn": 1800, "refreshToken":
```

[illegible]

Sample Usage for Reference

This feature was recently made live on the ABHA portal. You can refer to the SBX portal for one possible implementation approach. Below is the workflow from the portal for your reference.

Home – Click on Find ABHA using mobile number link

Find ABHA - Provide mobile number of ABHA holder, captcha answer and click on Next

Select ABHA – Select 'ABHA' to log in, then choose the 'Face Authentication' option from the dropdown.
